

BOB-020 “ BOB-086 backfill evidence

Item id: BOB-020 **Terminal status:** Completed (‘ Fixed.md) **Derived event_type:** Completed

Closure commit (git-history-derived)

- **Commit:** 46aa004b3a7d021d25f2f32c20e95d4dcfec3749
- **Short:** 46aa004
- **Authored date (UTC):** 2026-06-06
- **Subject:** docs(tracker): record BOB-020 CodeGraph; backfill BOB-019 hash; rev 6

Derivation method

```
git log --all --oneline -S "BOB-020" -- docs/Fixed.md | tail -1  
git log -1 --format=%cI "46aa004b3a7d021d25f2f32c20e95d4dcfec3749"
```

The commit above is the OLDEST commit whose pickaxe on docs/Fixed.md first introduces the literal BOB-020, so it marks the moment the item transitioned into the closed archive. The commit’s own change may document the closure (renames, seed, sync, or explicit close).

Honest boundary (¶11.4.6)

- Exact closure operator + timestamp are unrecoverable from pre-mandate history; by='AI' records the backfill agent, with AI-inferred documented in item_history.reason.
- This artefact fulfils the ¶11.4.146(D3) status-custody chain’s captured-evidence requirement for the backfilled row; it does NOT retroactively validate the ORIGINAL closure decision.
