

# BOB-005

## BOB-005 — BOB-086 backfill evidence

**Item id:** BOB-005 **Terminal status:** Fixed (→ Fixed.md) **Derived event\_type:** Fixed

### Closure commit (git-history-derived)

- **Commit:** a8916c0658acc3acd443f8b4ccd052c0d33615a6
- **Short:** a8916c0
- **Authored date (UTC):** 2026-06-06
- **Subject:** fix(plugins): restore public-tracker search (BOB-005) — framework at nova3 root + PySocks

### Derivation method

```
git log --all --oneline -S "BOB-005" -- docs/Fixed.md | tail -1  
git log -1 --format=%cI "a8916c0658acc3acd443f8b4ccd052c0d33615a6"
```

The commit above is the OLDEST commit whose pickaxe on docs/Fixed.md first introduces the literal BOB-005, so it marks the moment the item transitioned into the closed archive. The commit's own change may document the closure (renames, seed, sync, or explicit close).

### Honest boundary (§11.4.6)

- Exact closure operator + timestamp are unrecoverable from pre-mandate history; by='AI' records the backfill agent, with AI-inferred documented in item\_history.reason.

- This artefact fulfils the §11.4.146(D3) status-custody chain's captured-evidence requirement for the backfilled row; it does NOT retroactively validate the ORIGINAL closure decision.
